

I am extremely concerned that Sinclair Broadcasting's plan to air a partisan political documentary against candidate John Kerry will violate the law, or at least their FCC license.

Please issue an immediate desist order to prevent this violation before it can be committed. The effects on the political process and the damage to the public cannot be corrected after the fact. There simply isn't time in between the planned broadcast and the election.

Please let them understand that if they proceed, they will lose their licenses, and thus endanger their business. If the FCC doesn't have any teeth, it will become irrelevant.

Please take action this week.

Thank you.
